

# MacDon™

## Field Test Technician

MacDon Industries Ltd. is a family owned Winnipeg, Manitoba, Canada based corporation with offices in Kansas City, USA, and Melbourne, Australia. MacDon specializes in the design and manufacture of harvesting equipment for global markets. We are currently searching for “Field Test Technicians” to work on a contract basis for 4 to 11 month terms in our Engineering Testing Department.

### QUALIFICATIONS:

- Related University or College degree, or internship program.
- Familiar in the operation of farm machinery, a farm background an asset.
- Good communication skills; oral and hand written.
- Proficient in Windows and Office Software.
- Ability to use Digital camera equipment, e mail and video equipment to create both daily and weekly field reports.
- Good interpersonal relations.
- Good planning and administration abilities.
- Ability to work in both team situations, and alone unsupervised. Long hours in adverse conditions are sometimes required.
- Intuitive, self motivated and hard working with lots of patience
- Available to travel over extended periods of time.
- Must hold and maintain valid driver’s license and be able to travel in Canada, USA and Australia. Approx. 75 % of the time will be spent in the USA

### RESPONSIBILITIES:

- Work with the Engineering Test Department Supervisors, Engineers, and Product Managers to identify challenging conditions for field testing of prototype machines.
- Liaise with the Test Manager and Supervisors in arranging test sites and customers.
- Work in conjunction with the Engineering Shop Foreman and team members in preparing machines and equipment/tools for testing.
- Coordinate field test activities.
- Observe test machines (field and lab), gather electronic data using data logger, make value judgments of performance; and discuss observations with customers and team members.
