

Expansion Project

Submitted by Bill Carroll

Here is another photo update of the building construction that is taking place. The expansion of 601 Moray should be complete and occupied by the time you read this and the new Tractor/Header Staging building at 583 Moray will be completed by the end of November. The new storage compound is also now complete. A few additional parking spaces with electrical outlets were created along the new fence. There will likely be some odds and ends to finalize, but these projects are essentially behind us now.
